REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The Applicant in Prior Art Figure 1 discloses an apparatus which is equipped with a battery compartment containing a battery and is supplied with electric power from the battery, comprising: a battery terminal which comes into contact with an electrode of the battery contained in the battery compartment and draws electric power from the battery, wherein the battery terminal is a u-shaped elastic plate spring placed sideways, and has a contact which comes into contact with the battery electrode.

The claimed invention is directed toward a battery terminal is made of a conductive and elastic plate member bent to make a circuit with both its ends juxtaposed to each other, having contacts which come into contact at both the ends with the battery electrode, and has a pair of claws which are formed at positions close to the center of the plate member to pinch the battery by deflection of the plate member when the battery presses against the contacts.

Such a terminal structure is neither taught nor suggested in the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
